- To sign a document that says you understand that your Care Plan was reviewed with you if you decide not to participate in your care team meeting
- To give as many facts as you can to help your doctor or other health care provider take care of you. For example, it is important to tell your doctor about all the medicines you take (You may want to take all your medicine bottles with you to the doctor.)
- To call your doctor or clinic and let them know if you cannot come to an appointment
- To follow the instructions you get from your doctor or clinic
- To ask questions about things you do not understand
- To follow the rules set up by your personal doctor for his or her office
- To tell your doctor or clinic about any insurance you have
- To keep your Medicaid card in a safe place. Never let anyone else use your card

**Some rules your doctor might have:**

- Do not bring food or drink into the office
- Bring no more than one visitor with you to wait in the office
- Pay for any services not covered by Medicaid
- Call if you cannot keep your appointment
